

TECHNICAL SPECIFICATIONS

VULCOFAC NAC

GENERAL PROPERTIES

ORIGIN : CE – Production under control of *Safic-Alcan*

FUNCTION : Vulcanisation acid acceptor

CHEMICAL DESCRIPTION : special grade of sodium carbonate

CARACTERISTICS

	UNITS	TYPICAL VALUE	SPECIFICATIONS
Appearance		Powder	
Color		White	

PROVISIONNAL

METHODE OF USE

VULCOFAC NAC acts as an acid acceptor for lead free curing system of some halogenated elastomers (ECO) . For environmental reasons associated to lead containing materials , Vulcofac NAC is proposed with Vulcofac CP 3441 and with Vulcofac BPS .

PRESENTATION

Cardboard Box (25 kg)

Date : 08/02/05
